

**Major Cities Chiefs Police Association,  
Technology and Communication Committee  
invites you to**

# **Exploring Technology and Communication in Law Enforcement**

**Hosted by the Kansas City Missouri Police Department and Chief James Corwin**

**June 28 & 29, 2010**

**Marriott – Downtown  
Kansas City, Missouri**

This day-and-a-half conference will gather law enforcement professionals to network and learn about how to share information using technology. Participants will have an opportunity to present best practices from their agencies and lessons learned from implementation. Topics will include: real-time crime centers, social media, and using technology to communicate with the public. Don't miss this opportunity to meet and problem-solve with other large police departments.
